LIGHTING SOLUTIONS

ABOUT US

NGLS, Inc. **“An employee-owned company”**

Creative lighting solutions can make a dramatic impact to any project or space. NEXGEN lighting solutions is committed to providing and delivering unprecedented value and service to our employees, customers and manufacturer partners. Founded in 2016 by Tim Copeland, Bob Easterlin, Michael Payne and Jerry Slagle, the partners at NEXGEN Lighting Solutions are determined to bring a unique lighting project experience to contractors, architects, engineers and distributors in Texas and North Louisiana.

As a manufacturer partner with Signify (formerly Philips), NEXGEN Lighting Solutions has access to premier lighting technology for every application area. We focus on providing creative solutions that use the newest market technologies to provide a distinguished lighting experience for any space. Combined with creative control systems our complete offering will meet any illumination application within a variety of project budgets.

If you're looking for education, specialty lighting products, or advisory services, the team at NEXGEN Lighting Solutions can provide you with the service and support you need for your next building project. If you can dream it, we can build it from exterior, interior or landscape lighting design, we can bring your idea to life.
